Public Root CA

- **Sub CA 1 – Issues SSL Certs**
  - End-Entity Certs
- **Sub CA 2 – Issues SMIME Certs, but EKU allows SSL**
  - End-Entity Certs
- **Sub CA 3 – Operated by ABC Corp. Can issue all cert types**
  - **Sub CA 3a – Issues SSL**
    - End-Entity Certs
  - **Sub CA 3b – Issues SMIME, restricted by EKU**
    - End-Entity Certs
- **Sub CA 4 – Operated by XYZ Corp. Issues SSL, but Technically Constrained in line with BR (EKU, Name Constraints etc.)**
  - End-Entity Certs

Legend:

- 🟩 CA/certs fully in scope
- 🟨 CA certificate (as issued by higher-up CA) is in scope. Certs below are not in scope
- 🟥 Not in scope
- 🟦 Should not be in scope, however as CA/cert above is in scope, the auditor must perform procedures to validate that there are no SSL certs
