

# B2G/Roadmap

## [\[edit\]](#) Committed 1.3 Features

Status	FT	Description	Bugzilla #
	Graphics	Asynchronous Panning/Zooming in Apps and Web Content	909877
DONE	Email	POP3 support	916080, 916083, 916088
REVIEW	Communications	MMS/SMS Enhancements	919966, 919995
DONE	Communications	Call Ended message	920414
DONE	Communications	DSDS Import contacts from each SIM at a time	923629
DONE	Device	BlueDroid porting	876583
	Systems FE	Add Marketplace and Installed Apps to E.Me search results	881063
	RIL	DSDS Settings	938422, 927764, 926347,926350,926352,926351,938440,921980,918558, 923629,926342,926345, 941476
DONE	RIL	EAP-SIM	920933, 920936, 920939

## [\[edit\]](#) Targeted 1.3 Features

We would like to deliver these features in 1.3, but they will be postponed to 1.4 if they are not ready in time. We will not hold the 1.3 release for any of these features.

Status	FT	Description	Bug #
DONE	Browser	Removal of About page in Browser	903690
Commit 1.4	Communications	Support for Datastore API	918827
Target 1.4	Communications	Delete multiple contacts	920009
Commit 1.4	Communications	Support sharing of Contacts via NFC	894676
Backlog	Device	Camera capture size settings	921078
Backlog	Device	Camera viewfinder cropping	921079
DONE	Device	Multiple Bluetooth file transfers	921085
DONE	Device	SD card formatting	921105
Madai	DSDS	Calling the correct Voicemail	940752
Done	Email	POP3 Support	91608, 916083, 916088
Commit 1.4	Email	Advance to next/previous message from within messages	918303
Commit 1.4	Keyboard	Keyboard: Dynamic hit states	908487
Commit 1.4	Keyboard	Cursor movement	921964

DONE	Media	Access to music controls in notifications tray	902981
DONE	Media	Access to music controls when screen is locked	891024
In Review/QA?	Media	Edit image orientation to correct for tilt sensor inaccuracies	891030
DONE	Media	Enable continuous autofocus on camera	925192
DONE	Media	Add flash capability to camera	925215
DONE	Media	Arrange content in the gallery app	925179
In Review/QA?	Media	Display file information in the gallery app	925216
DONE	Multimedia	Use speakerphone with FM radio app	863098, 929960, 854753
Backlog	Multimedia	Record videos without MozCamera API.	923030
Target 1.4	Multimedia	Record video clip from standard API (OmxEncoder + MP4)	923038
PM?	Network Protocol (RTSP)	Network Protocol (RTSP)	940460, 940461, 831645, 929372, 940463, 940539, 940544, 940549, 940552
Sandip?	NFC	NFC Pairing	894672
Sandip?	NFC	NFC Pairing (Wifi)	894673
Sandip?	NFC	NFC Sharing (URL)	894678
Sandip?	NFC	NFC Sharing (Image/Video)	894320
Sandip?	NFC	Reading from NFC tags	894323
Sandip?	NFC	NFC API	894689
DONE	Performance	Performance: Scrolling FPS, Latencies	915068, 915064
DONE	System	Engineering mode	925673
Commit 1.4	System	Cached Privacy Policy	897609
DONE	System	Offline Error handling improvements	930630
Target 1.4	System	FTE: Update tutorial screens to describe edge gesture app switching	924624
Target 1.4	System	Haida: Edge gesture app switching	918792
DONE	System	Haida: Replaceable Homescreen prototype	898330
DONE	System	Smart Spaces: grouping apps by category (eg. Social, Photography,etc.	910302
DONE	UX: Visual refresh phase 1	UX: Visual refresh phase 1	Headers: 92529, Status bar: 925930
Sandip?	WebRTC	getUserMedia for image/video (for camera)	923361

Sandip?	WebRTC	audio-only PeerConnection calls	923363
Sandip?	WebRTC	video PeerConnection calls	923364
Sandip?	WebRTC	WebRTC: DataChannels	923365

## [edit] Committed 1.4 Features

- System: Cached Privacy Policy ([897609](#))

## [edit] Targeted 1.4 Features

Currently none of these features are committed. We will select committed features as the 1.3 train wraps up.

- Communications: Call Log: Call directly from call log ([920011](#))
  - Communications: Messaging: Draft message support for messaging application ([919971](#))
  - Communications: Read receipts for MMS ([919974](#))
  - Communications: Contacts app refactor/Support Datastore API ([918827](#))
  - Communications: NFC Contact Share ([894676](#))
  - Communications: Support for Haida ([946750](#))
  - Communications: DSDS feature completion (xxxxxx)
  - Communications: Support delivery reports ([919977](#))
  - Communications: Comms app directory split ([946772](#))
  - Communications: MMS to email address ([840515](#))
  - Communications: Delete multiple contacts ([920009](#))
- 
- Browser: Update URL bar ([924593](#))
  - Browser: Update navigation chrome including for web app wrapper ([924606](#))
  - Browser: Add view menu to toolbar ([924597](#))
  - Browser: Move tabs button to toolbar ([924599](#))
  - Browser: Update tab design ([924602](#))
  - Browser: Download improvements (has dependency on Download Manager) ([848371](#))
- 
- Media: Add digital zoom capability to camera ([925187](#))
  - Media: Additional camera enhancements
  - Media: Improve gallery edit options (filters, colors, effects)
  - Media: Image enhancements in gallery
  - Media: Improve navigation in video and gallery
  - Media: Battery status when running low while recording video
  - Media: Video player fast forward/rewind
- 
- System: Download Manager ([906255](#), [906256](#), [906257](#), [906265](#))
  - System - FTE: Update tutorial screens to describe edge gesture app switching ([924624](#))
  - System - Haida: Edge gesture app switching ([918792](#))
  - System - Haida: Merge Browser into System app ([918793](#))
  - System - Haida: Email moved to datastore
  - System - Haida: Calendar moved to datastore
  - System - Haida: Rocketbar phase 1 (OS-wide search/discovery for history, bookmarks, web search, adaptive app search)
  - System - Haida: New notification drawer
  - System - Haida: Gaia wide Asynchronous Pan/Zoom ([909877](#))
  - System - FTE: Sign into Firefox on first run and in Settings ([897600](#), [897604](#), [905637](#))
- 
- Productivity - EAS Calendaring Support
  - Productivity - Email Filtering (Notification & Display)
  - Productivity - Email Conversation View
- 
- Device: Bluetooth profile customization ([892172](#))
  - Device: Gonk 4.4 porting ([943278](#))
  - Device: MTP ([922927](#))
  - Device: Mount/Unmount SD card ([945642](#))
  - Device: Recognize unformatted SD card ([908916](#))
  - Device: Media thread priority management
  - Device: About Service
  - Device: Asynchronous Codec
  - Device: Video thumbnail performance improvement
  - Keyboard: Text selection (editable) ([921965](#))
  - System: Pseudo-locales ([900182](#))
  - System: App splash screen ([904332](#))
  - Settings: Settings refactoring ([922658](#))

- UX: Visual refresh phase 2
- Media Recording: Video recording of a clip: Trim, cut, transcode a clip (923042)
- Media Recording/WebRTC: WebRTC + AudioRecording (923044)
- Media Recording/WebRTC: WebRTC + VideoRecording (923045)
- Media Recording: Take picture from the standard API (Implement ImageCapture API) (923046)
- WebRTC: Audio recording on peer connection (923044)
- WebRTC: Video recording on peer connection (923045)
- NFC: NFC Payments enablers (894322)
- NFC: NFC Payments API (894691)
- DSOS (Bug 918554, Bug 938433, Bug 938430, Bug 938438, Bug 918556, Bug 921971, Bug 918533, Bug 931160)
- Network Protocol: VPN
- Services: Where's My Fox: Track location, Play sound, Lock screen, Set note, Remote wipe (Meta 940785)

## [edit] Targeted 1.5 Features

- Browser: Settings moved to System Settings
- Browser: Full screen mode
- System - Haida: App refactoring to take advantage of sheets navigation
- System - Haida: Separate Settings Drawer from Notifications Drawer, provide new access method (924586)
- System - FTE: Update tutorial screens to describe settings drawer (924626)
- System - Haida: Separation of lockscreen code prototype (898348)
- System - Haida: Reader Mode
- System - Haida: New Instant App and bookmark model
- Keyboard: Copy/Paste
- System: Text selection (non-editable)
- Device: Move Bluetooth profiles to Gaia

## [edit] Committed 1.6 Features

## [edit] Targeted 1.6 Features

- System - Haida: Settings Drawer phase 2 (access to commonly used OS elements and settings)

## [edit] Past Releases + Complete Features

## [edit] Committed 1.2 Features

- Communication: Redial last number (887488, 887545) -- [DONE]
- Communication: Bluetooth contacts sharing (887534, 887663) -- [DONE]
- Communication: Contact export to USIM (887673) -- [DONE]
- Communication: Export Contact to media card (887776) -- [DONE]
- Communication: Fixed dialing number (FDN) support (888902, 888912, 888919) -- [DONE]
- Communication: Conference calling (887680, 887686, 887764) -- [DONE]
- Communication: Silent SMS (816564) -- [DONE]
- Communication: Improvements to contact import (887783, 894851) -- [DONE]
- Communication: Improvements to incoming call design (887802) -- [DONE]
- Communication: MMI code improvements (CLIP, CLIR, Call Barring, Call on Hold, Call waiting) (891345, 892498, 894871, 893727, 833754, 890831, 890912, 897441) -- [DONE]
- Settings: CE: Audio volume warning (891687) -- [DONE]
- Settings: Keyboard IME framework (891678) -- [DONE]
- Productivity: Email notifications (892519, 892521, 892522, 892523) -- [DONE]
- Productivity: Email sync internal settings (892518) -- [DONE]
- Productivity: Email support for audio & video attachments (838007,838008) -- [DONE]
- Graphics/Audio: Microphone API (894848) -- [DONE]
- Browser: Enhanced responsiveness/rendering (894923, 894939, 894954)
- System: Multi-resolution support (WVGA, qHD) (891685) -- [DONE]
- System: Customization management (891723, 891724, 891725, 892938) -- [DONE]
- Media: Music player status on homescreen (891014) -- [DONE]

## [edit] Targeted 1.2 Features

- DNT: three-state setting (900434) -- [DONE]

- Email: message body format improvements (bug TBD based on UX input) -- [DONE]
- System: Closing/replacing notifications (892528, 892530) -- [DONE]
- Media: Speaker out for FM radio (854753)
- Media: Additional file info display in Video player (902995) --[DONE]
- Wifi/hybrid aGPS positioning
- RIL: Basic CDMA support (869778, 874841, 890325, 890330, 890807, 890809, 890814, 890816, 890819, 890820, 890822, 890823, 890825, 890826, 890827, 890828) --[DONE]
- RIL: OMA CP (815554) -- [DONE]
- RIL: WAP Push (891253) -- [DONE]
- RIL: SIMTK improvements
- Bluetooth: A2DP (892162) --[DONE]
- Bluetooth: AVRCP (892164, 892165) --[DONE]
