Let's teach the world the web!

Webmaker Mentors are a global community of educators, techies, makers, parents, youth and other people who are passionate about building a more web literate world. We believe in making as learning. We believe learning happens best when it's with others. We believe events are a great way to bring people together to make and learn.

Resources

We're creating and collecting teaching resources that are 100% free, remixable, hackable and shareable.

Connections

We're forging connections between those have skills with those who want to develop new skills.

Events

We're producing events and campaigns to foster and grow the above.

Connect

Visit us online to learn more and to start making things online using Mozilla Webmaker tools including Thimble (HTML/CSS editor) and Popcorn Maker (web video) www.webmaker.org

Join the Webmaker Mentors and teach people how to make amazing things on the web! www.webmaker.org/teach

Join our G+ Community, Mozilla Webmakers

Follow us on Twitter @MozTeach
Share your resources and connect with others on Twitter using #teachtheweb

Save the Date

Mozilla Festival 2013:
An annual read/write festival for learning and making the open web. Celebrate the best of webmaking. Meet fellow mentors and learners. Work together towards 2014 and beyond.
October 25 – 27 in London, UK
www.mozillafestival.org
