

S813: Turning on Search Suggestions [EngQA]

1. Functional

C29594: Display the search suggestions hint - by focus and by mouse click

Type	Priority	Estimate	References
Other	Medium	None	None
Automatable			
No			

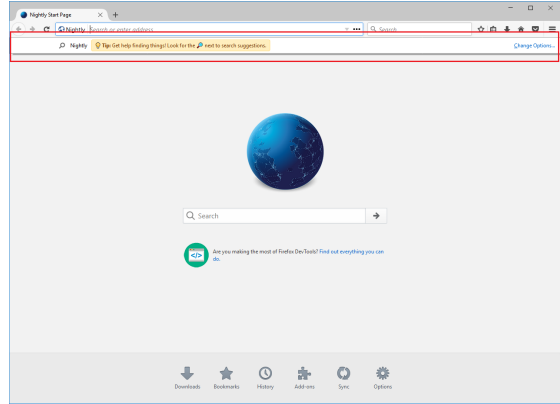

Steps

Step	Expected Result
1 Launch Firefox with a new profile	Firefox is opened
2 Focus the Awesome bar by hitting the Ctrl+L on Windows or Ubuntu/ Cmd+L on Mac OS X	<p>The search suggestions hint is displayed as an animation with the following message "Tip: Get help finding things! Look for the (search) next to search suggestions." (Use this mockup to see how the animating is done. Keep in mind the text is different - https://phlsa.github.io/awesomebar-hint/awesomeBar-results-hint.html).</p> <p>In the right side of the hint, you will notice the "Change Options/Preferences..." link.</p> <p>The search suggestions hint looks like:</p> 
3 Click on "Change Options/Preferences..." link - do not click anywhere in the browser's content	about:preferences#general page is opened. "Show search suggestions in location bar results" option is checked.
4 Open a new tab and start typing	The search suggestions hint is displayed as soon as the new tab is opened (without animating) and is displayed also in the Awesome's Bar drop-down (along with the autocomplete results, search suggestions and one-off buttons).
5 Unfocus the Awesome bar by clicking anywhere in the browser's content	
6 Open a new tab	The search suggestions hint is displayed (without animating) as soon as the new tab is opened.

C41256: Display the search suggestions hint 4 times in the same tab

Type	Priority	Estimate	References
Other	Medium	None	None
Automatable			
No			

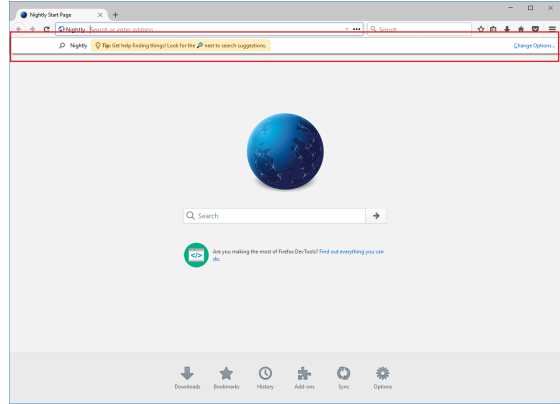

Steps

Step	Expected Result
1 Launch Firefox with a new profile	Firefox is opened
2 Focus the Awesome Bar	<p>The search suggestions hint is displayed as an animation with the following message "Tip: Get help finding things! Look for the (search) next to search suggestions." In the right side of the hint, you will notice the "Change Options..." link.</p> <p>The search suggestions hint looks like:</p>  <p>The screenshot shows a Firefox browser window with a search bar. A yellow tooltip is displayed above the search bar with the text: "Tip: Get help finding things! Look for the (search) next to search suggestions." and a "Change Options..." link on the right. The background shows the Firefox homepage with a globe and a search bar.</p>
3 Unfocus the Awesome Bar and then focus it again	The search suggestions hint is displayed again (without animating).
4 Repeat step 3 twice	In each case, the search suggestions hint is displayed again (without animating).
5 Repeat step 3 once again	The search suggestions hint is not displayed anymore.

C40153: Display the search suggestions hint 4 times in several windows

Type Other	Priority Medium	Estimate None	References None
Automatable No			

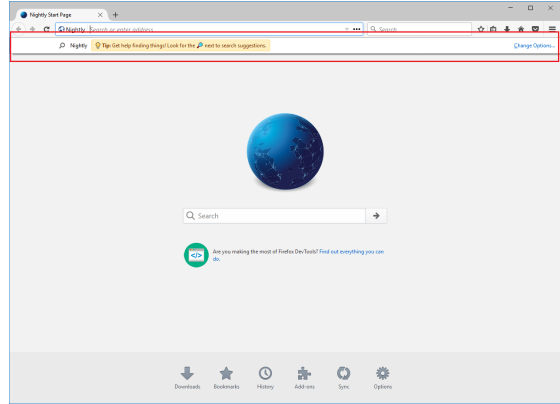

Steps

Step	Expected Result
1 Launch Firefox with a new profile	Firefox is launched
2 Focus the Awesome bar by mouse click	<p>The search suggestions hint is displayed as an animation with the following message "Tip: Get help finding things! Look for the (search) next to search suggestions." In the right side of the hint, you will notice the "Change Options..." link.</p> <p>The search suggestions hint looks like:</p>  <p>The screenshot shows a Firefox browser window with the search bar focused. A yellow tooltip is displayed above the search bar with the text: "Tip: Get help finding things! Look for the (search) next to search suggestions." and a "Change Options..." link on the right. The background shows the Firefox home page with a globe and search bar.</p>
3 Open a new window (CTRL/CMD+N) and focus the Awesome bar by pressing CTRL/CMD+L keys	The search suggestions hint is displayed animating again.
4 Open a new window (CTRL/CMD+N) and start typing in the Awesome Bar	<p>The search suggestions hint is displayed animating once the URL is focused</p> <p>The Awesome's Bar drop-down (along with the search suggestions hint) is also displayed once you start typing</p>
5 Open a new Window (CTRL/CMD+N) and focus the Awesome bar by mouse click	The search suggestions hint is displayed animating again.
6 Open a new Window, focus the Awesome bar using CTRL/CMD+L and start typing.	The search suggestions hint is not displayed at all (the hint is only displayed 4 times in a Firefox profile)

C40154: Display the search suggestions hint 4 times in several tabs

Type	Priority	Estimate	References
Other	Medium	None	None
Automatable			
No			

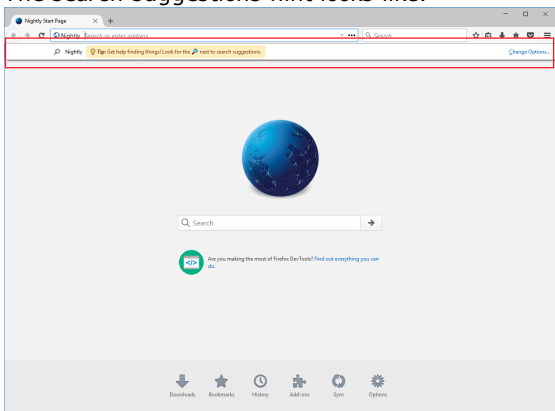

Steps

Step	Expected Result
1 Launch Firefox with a new profile	Firefox is opened
2 Open a new tab by clicking on the "+" button	<p>The search suggestions hint is displayed as an animation with the following message "Tip: Get help finding things! Look for the (search) next to search suggestions." In the right side of the hint, you will notice the "Change Options..." link.</p> <p>The search suggestions hint looks like:</p> 
3 Unfocus the Awesome bar by clicking anywhere in the browser's content	Awesome bar is unfocused
4 Open a new tab by pressing the keys Ctrl/Cmd+T - do not unfocus the Awesome bar	A new tab is opened and the search suggestions hint is displayed without animating
5 Click on the "+" to open a new tab	Search suggestions hint is not displayed
6 Start typing in the Awesome Bar	The search suggestions hint is displayed without animating along with the Awesome's bar drop-down
7 Open a new tab by pressing the keys Ctrl/Cmd+T and start typing in the Awesome Bar	The search suggestions hint is displayed without animating after typing is started along with the Awesome's bar drop-down

C29659: Dismiss the search suggestions hint

Type	Priority	Estimate	References
Other	Medium	None	None
Automatable			
No			

Steps

Step	Expected Result
1 Launch Firefox with a new profile	Firefox is opened
2 In a tab that is already opened, focus the Awesome Bar by clicking on it	<p>The search suggestions hint is displayed as an animation with the following message "Tip: Get help finding things! Look for the (search) next to search suggestions." (Use this mockup to see how the animating is done. Keep in mind that the text is different - https://phlsa.github.io/awesomebar-hint/awesomeBar-results-hint.html).</p> <p>In the right side of the hint, you will notice the "Change Options..." link.</p> <p>The search suggestions hint looks like:</p> 
3 Unfocus the Awesome bar by clicking anywhere in the browser's content	<p>The Awesome bar loses focus</p> <p>The search suggestions hint is dismissed.</p>
4 Open a new tab	The search suggestions hint is displayed (without animating)
5 Click anywhere in the search suggestions hint (avoid the "Change Options..." link)	The search notification bar is not dismissed
6 Click anywhere on the browser to unfocus the Awesome Bar	The Awesome Bar is unfocused
7 Open a new tab	Search suggestions hint is displayed (without animating)
8 Open a new tab	A new tab is opened and the search suggestions hint is not displayed
9 Repeat step 6 and 7	A new tab is opened and the search suggestions hint is displayed (without animating)
10 Write anything in the Awesome bar	Once typing is started, the Awesome's bar drop-down is

displayed and the search suggestions hint remains integrated into the drop-down.

11

Close Firefox and open it again

Firefox is reopened

12

Focus the Awesome bar and type for a valid word

The Awesome's bar drop-down is opened and the following elements are being displayed:

- autocomplete results
- search suggestions
- one-offs button

The search suggestions hint is not displayed.

C29867: Check the search suggestion hint on a clean install

Type	Priority	Estimate	References
Other	Medium	None	None
Automatable			
No			

Preconditions

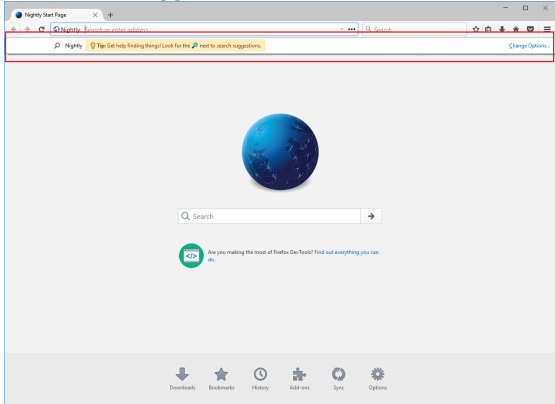

To simulate a clean install, do the following:

On Windows: In the Run box, type in %APPDATA% -> Roaming and delete the Mozilla folder, and APPDATA -> Local -> delete the Mozilla folder.

On Mac OS X: ~/Library/Application Support/ -> delete the Firefox folder and ~/Library/Caches -> delete the Mozilla folder

On Ubuntu: ~/.mozilla/firefox/<profile folder>, delete also the Mozilla updates folder

Steps

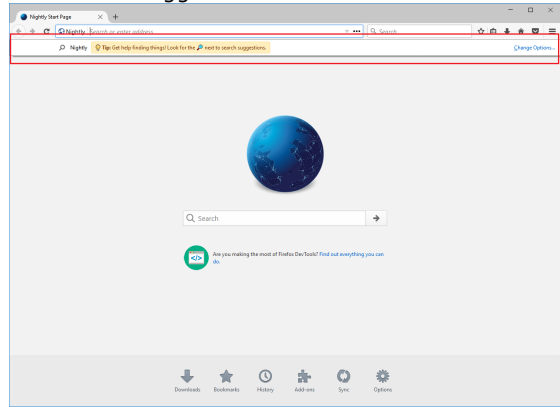

Step	Expected Result
1 Launch Firefox	Firefox is opened
2 Focus the Awesome bar	<p>The search suggestions hint is displayed as an animation with the following message "Tip: Get help finding things! Look for the (search) next to search suggestions." (Use this mockup to see how the animating is done. Keep in mind that the text is different - https://phlsa.github.io/awesomebar-hint/awesomeBar-results-hint.html).</p> <p>In the right side of the hint, you will notice the "Change Options..." link.</p> <p>The search suggestions hint looks like:</p> 
3 Open a new tab and start typing anything in the Awesome Bar	<p>The Awesome's bar drop-down is opened showing:</p> <ul style="list-style-type: none"> - the search suggestions hint (without animating) - the autocomplete results - search suggestions - one-offs button.
4 In the search suggestions hint, click on "Change Options..." link.	<p>about:preferences#general page is opened. "Show search suggestions in location bar results" option is checked.</p>
5 Open a new window and start typing anything in the Awesome Bar	<p>The search suggestions hint is displayed again as soon as the Awesome Bar is focused (as an animation), and remains displayed after typing, right below the Awesome Bar (along with the Awesome's bar drop-down)</p>

C29906: Search suggestions notification bar while in Private Browsing

Type	Priority	Estimate	References
Other	Medium	None	None
Automatable			
No			

Steps

Step	Expected Result
1 Launch Firefox with a new profile	Firefox is launched
2 Open a new Private window (Open menu -> New Private Window)	The private window is opened
3 Start typing in the Awesome Bar	The search suggestions hint is NOT displayed Search suggestions are not even displayed in Private Browsing mode
4 Go back to the non-private Firefox window (from step 1), start typing in the Awesome bar	The search suggestions hint is displayed as an animation with the following message "Tip: Get help finding things! Look for the (search) next to search suggestions." In the right side of the hint, you will notice the "Change Options..." link. The search suggestions hint looks like:  A screenshot of the Firefox search bar in a non-private window. A yellow notification bar is visible at the top of the search bar with the text: "Tip: Get help finding things! Look for the (search) next to search suggestions." and a "Change Options..." link on the right. Below the notification bar is a search input field with a magnifying glass icon and a right-pointing arrow. The background of the search bar features a blue globe icon and a small Firefox logo with the text "Are you making the most of Firefox DevTools? Find out everything you can do."
5 Open a new private window and start typing anything in the Awesome Bar	The search suggestions notification bar is not displayed Search suggestions are not even displayed in Private Browsing mode

C44167: Display the hint on window re-size

Type Other	Priority Medium	Estimate None	References None
Automatable No			

Steps

Step	Expected Result
1 Launch Nightly with a new profile	Firefox is opened
2 Re-size the Firefox window (make it smaller)	The Firefox window is properly re-sized
3 Focus the URL Bar	The search suggestions hint is properly displayed as an animation (fits the window)
4 Open a new tab and start typing	The search suggestions hint is properly displayed (the hint does not animate, and fits the Firefox window)

2. Upgrade/downgrade

C29900: Update a previous version of Firefox that has the search suggestions disabled

Type	Priority	Estimate	References
Other	Medium	None	None
Automatable			
No			

Preconditions

Install an older version of Firefox where search suggestions were not turned on by default:

- Nightly 55 - for e.g from 20 May 2017 - Windows and Mac OS X: <http://archive.mozilla.org/pub/firefox/nightly/2017/05/2017-05-20-03-02-04-mozilla-central/> and Ubuntu: <http://archive.mozilla.org/pub/firefox/nightly/2017/05/2017-05-20-18-23-12-mozilla-central/>

Steps

Step	Expected Result
1 Launch an older version of Firefox with a new profile	Firefox is opened
2 Start typing anything in the Awesome bar	A notification bar asking if you want to improve your search experience with suggestions is displayed
3 In the notification bar from step 2, click on the No button	The notification bar is dismissed
4 Go to about:preferences#search and look at the option: Show search suggestions in location bar results	The option is unchecked
5 Update Firefox	Firefox is properly updated to the latest version
6 Start typing anything in the Awesome bar	When the Awesome bar is focused, the search suggestions hint is NOT displayed and neither is in the Awesome's Bar drop down. The autocomplete results and the one-offs buttons are displayed in the drop down.
7 Navigate to about:preferences#general and look at the option: Show search suggestions in location bar results	The option is unchecked
8 Open a new Private Window (Open menu -> new private window)	The new private window is opened
9 Focus the Awesome Bar and start typing anything	When the Awesome bar is focused, the search suggestions hint is NOT displayed and neither is in the Awesome's Bar drop down. Search suggestions are also not displayed in the Awesome Bar drop-down. The autocomplete results and the one-offs buttons are displayed in the drop down.

C29902: Update a previous version of Firefox that has the search suggestions enabled

Type Other	Priority Medium	Estimate None	References None
Automatable No			

Preconditions

Install an older version of Firefox where search suggestions were not turned on by default:

- Nightly 55 - for e.g from 20 May 2017 - <http://archive.mozilla.org/pub/firefox/nightly/2017/05/2017-05-20-03-02-04-mozilla-central/>, <http://archive.mozilla.org/pub/firefox/nightly/2017/05/2017-05-20-18-23-12-mozilla-central/>

Steps

Step	Expected Result
1 Launch an older version of Firefox with a new profile	Firefox is opened
2 Start typing anything in the Awesome Bar	A notification bar asking if you want to improve your search experience with suggestions is displayed
3 In the notification bar from step 2, click on the Yes button	The notification bar is dismissed
4 Go to about:preferences#search and look at the option: Show search suggestions in location bar results	The option is checked
5 Update Firefox	Firefox is properly updated to the latest version
6 Start typing anything in the Awesome Bar	The Awesome's bar drop-down is opened including: <ul style="list-style-type: none"> - the autocomplete results - the search suggestions - one-offs buttons. The search suggestions hint is not displayed.
7 Navigate to about:preferences#general and look at the option: Show search suggestions in location bar results	The option is checked

C29903: Update a previous version of Firefox where the search suggestions prompt were ignored

Type	Priority	Estimate	References
Other	Medium	None	None
Automatable			
No			

Preconditions

Install an older version of Firefox where search suggestions were not turned on by default:

- Nightly 55 - for e.g from 20 May 2017 - <http://archive.mozilla.org/pub/firefox/nightly/2017/05/2017-05-20-03-02-04-mozilla-central/>, <http://archive.mozilla.org/pub/firefox/nightly/2017/05/2017-05-20-18-23-12-mozilla-central/>

Steps

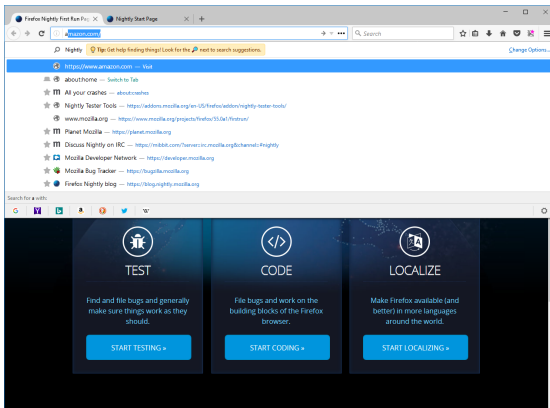

Step	Expected Result
1 Launch an older version of Firefox with a new profile	Firefox is opened
2 Start typing anything in the Awesome bar - ignore the notification bar that informs you about the search suggestions	A notification bar asking if you want to improve your search experience with suggestions is displayed
3 Go to about:preferences#general and look at the option: Show search suggestions in location bar results	The option is unchecked
4 Update Firefox	Firefox is properly updated to the latest version (restart is included)
5 Start typing about:preferences#general and look at the option: Show search suggestions in location bar results	Once the Awesome Bar is focused, the search suggestions hint is displayed as an animation. The "Show search suggestions in location bar results" box is checked
6 Open a new window and focus the Awesome Bar	The search suggestions hint is displayed (as an animation)
7 Close Firefox and open reopen it again	Firefox is closed and reopened
8 Focus the Awesome Bar and start typing anything	As soon as the Awesome bar is focused, the search suggestions hint is displayed. Once typing is started the Awesome's Bar autocomplete drop-down is opened including: <ul style="list-style-type: none"> - the search suggestions hint - the autocomplete results - the search suggestions - the one-offs buttons.
9 Open a new tab and start typing	As soon as typing is started, the search suggestions hint is opened. Awesome's Bar drop-down is opened and contains the following elements: <ul style="list-style-type: none"> - the search suggestions hint - the autocomplete results - the search suggestions - the one-offs buttons.

3. Accessibility

C29797: Search suggestions hint and key navigation

Type	Priority	Estimate	References
Other	Medium	None	None
Automatable			
No			

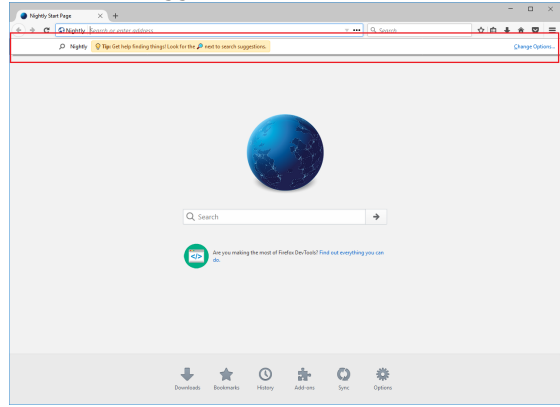

Steps

Step	Expected Result
1 Launch Firefox with a new profile	Firefox is opened
2 Open a new tab and start typing something (like "a")	The search suggestions hint is displayed (as an animation) below the Awesome Bar and the autocomplete results, search results and one-offs buttons are displayed beneath it. It looks like: 
3 Navigate through the autocomplete results and search suggestions by pressing the TAB key	The navigation is done and includes the autocomplete results and the search suggestions. The search suggestions hint is not part of the keyboard navigation.
4 Navigate through the autocomplete results and search suggestions by pressing the down arrow key	The navigation is done and includes the autocomplete results, the search suggestions, one off buttons and the Gear icon. The search suggestions hint is not part of the keyboard navigation.

C29904: Search suggestions hint - with an enabled dark theme

Type	Priority	Estimate	References
Other	Medium	None	None
Automatable			
No			

Steps

Step	Expected Result
1 Launch Firefox with a new profile	Firefox is opened
2 Start typing about:addons in the Awesome bar	<p>As soon as the Awesome Bar is focused, the search suggestions hint is displayed as an animation.</p> <p>The search suggestions hint looks like:</p>  <p>The screenshot shows a Firefox browser window with the search bar focused. A search suggestions hint is displayed above the search bar, featuring a blue globe icon and a search input field. Below the search bar, there is a notification bar with the text 'Are you making the most of Firefox DevTools? Find out everything you can do.' and a 'Change Options' link.</p>
3 Click on Appearance section and enable the Compact Dark theme	The compact dark theme is enabled
4 Restart Firefox (Open Menu -> Developer ->Developer Toolbar -> Write "restart" and hit the Enter key)	Firefox is restarted
5 Focus the Awesome Bar and start typing anything	The search suggestions hint is properly displayed (as an animation) as soon as the Awesome Bar is focused. All the elements of the Awesome's Bar (the search suggestions hint, the autocomplete results, search suggestions, one-offs buttons) are properly displayed.
6 Go back to about:add-ons and change to the default theme again.	Dark theme is changed
7 Focus the Awesome Bar and start typing anything	The search suggestions notification bar is properly displayed (without animating) as soon as the Awesome Bar is focused. All the elements of the Awesome's Bar (the search suggestions hint, the autocomplete results, search suggestions, one-offs buttons) are properly displayed.

C29905: Search suggestions notification bar rendering while a high contrast theme is enabled

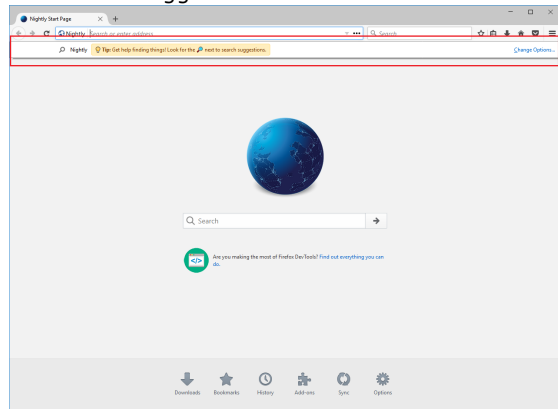

Type	Priority	Estimate	References
Other	Medium	None	None
Automatable			
No			

Preconditions

Activate a high contrast theme.

- "Windows: Go to Personalize> Themes> Theme Settings and activate a High Contrast Theme.
- Ubuntu: Install "gnome-control-center"- > System settings -> Appearance.
- Mac N/A

Steps

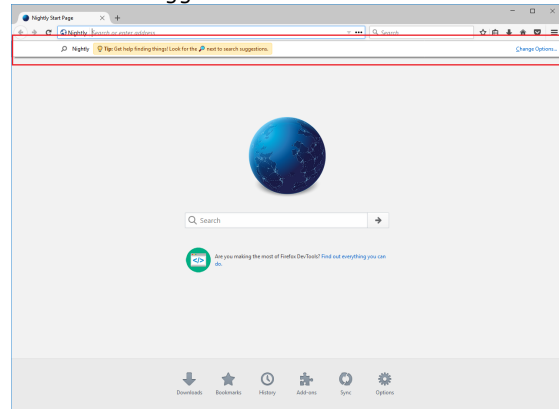

Step	Expected Result
1 Launch Firefox with a new profile	Firefox is opened
2 Focus the Awesome Bar and start typing anything	As soon as the Awesome Bar is focused, the search suggestions hint is displayed as an animation. The search suggestions hint looks like:  A screenshot of the Firefox search suggestions hint. It shows a search bar with a magnifying glass icon and a search input field. Below the search bar, there is a small globe icon and a search bar. Below that, there is a small green icon with the text "Are you making the most of Firefox DevTools? Find out everything you can". At the bottom, there are several icons for Downloads, Bookmarks, History, Add-ons, Sync, and Options.
3 In the search suggestions hint, click on the Change Options/Preferences link	about:preferences#general page is opened. "Show search suggestions in location bar results" option is checked.
4 In about:preferences#general and uncheck the preference "Show search suggestions in location bar results"	Preference is unchecked
5 Restart Firefox (Open Menu -> Developer ->Developer Toolbar -> Write "restart" and hit the Enter key)	Firefox is restarted
6 Open a new tab and start typing anything in the Awesome Bar	The search suggestions hint is NOT displayed The search suggestions are NOT displayed Autocomplete results and One-offs buttons are properly displayed
7 Navigate to about:preferences#general and check the preference "Show search suggestions in location bar results"	Preference is checked
8 Restart Firefox (Open Menu -> Developer ->Developer Toolbar -> Write "restart" and hit the Enter key)	Firefox is restarted

9

Focus the Awesome Bar and start typing anything

As soon as the Awesome Bar is focused, the search suggestions hint is displayed as an animation.

The search suggestions hint looks like:

C29952: Search suggestions notification bar and the Screen reader

Type	Priority	Estimate	References
Other	Medium	None	None
Automatable			
No			

Preconditions

Download and install a screen reader tool.

Windows: Download and install a screen reader tool: <http://www.nvaccess.org/download/>

Ubuntu - Start "Orca Screen Reader" which is already installed

Mac OS X - Use "Voice Over" which is already installed. System Preferences> Accessibility> Voice Over> "Enable Voice Over"

Steps

Step	Expected Result
1 Open/Enable the screen reader	Screen reader is properly opened/enabled
2 Launch Firefox with a new profile	Firefox is opened
3 Focus the Awesome Bar and start typing anything	As soon as the Awesome Bar is focused the search suggestions hint is displayed. The Awesome's Bar drop-down with all its components is displayed as typing is started (the search suggestions hint is integrated into the drop-down)
4 Hover your mouse over the search suggestions hint	The screen reader reads the search suggestions hint.
