Hi,

Please see below the **Block Playback** feature status, Meta Bug [1308154](#) :

**Feature testing status:** COMPLETED

All the available tests were executed, on Nightly 54.0a1, across the following platforms: Mac OS X 10.11 , Windows 10 x64 and Ubuntu 16.04 x64.

**1. Overall feature status after testing:** YELLOW

One issue was logged during the last run on Nightly 54.0a1 that is worth of note: [1338137](#)

**2. Recommendation from QE:** SHIP IT, CONDITIONALLY

Based on the test results, I'm conditionally signing off on this feature for the Aurora merge pending on the fix of the following bugs in Aurora:

- [1338137](#) - If the first tab is pinned and muted - media is not blocked after browser restart
- [1329170](#) - Play Tab indicator looks pixelated in pinned tabs
- [1330681](#) - Play tab indicator has no hover state in pinned tabs

\*Note: Developers already fixed [Bug 1330681](#) and I will verify the fix as soon as it lands.

**3. Manual Testing Summary:**

- **Test Plan:** [https://wiki.mozilla.org/QA/Block\\_Playback](https://wiki.mozilla.org/QA/Block_Playback)
- **Detailed Test Results:**
  - Full testing via TestRail, see [Manual Testing summary report](#) | see attached PDF

**4. Reported bugs for this build:**

See [this query](#) for the complete list with all the bugs opened.

**5. Already known, high impact bugs encountered during sign off:**

-none.

Please let me know if you have any questions about this report.

Regards,

--
