For the first time, YOU can write the code that sets this page's background color. Really, it's easy! **Click here to try it!**

background-color is a style property that sets the background color of an element on a web page.

Google

Search

Let's get started! Try typing in a color name (like "blue", "red" or "green")

{background-color: **Dee**   ;}

Google
